

 Retrofits ignored

Disclaimer

Note: Only for vehicles with approval in accordance with EU type approval. The selected wheel/tire combination is entry-relevant under certain circumstances. In the vehicle's oxidation catalytic converter, please check whether the wheel/tire combination is entered. If this is not the case, then give the customer either the excerpt from the EU type approval or the Part Certificate of Conformity. Where applicable, a subsequent national approval may be required for a specific country.
