Issue 1, 10/12/2022

You can find more information and the configurator for the BMW 2 Series Coupé online at www.bmw.de/m2

Further information is available at www.bmw.de and from our BMW customer service Monday to Sunday from 8 a.m. to 8 p.m., telephone 089 1250 160 00, e-mail: kundenberatung@bmw.de

BMW M2:

Exterior color M Zaandvoort blue non-metallic, 19"/20" M light alloy wheels Double-spoke style 930 M with mixed tyres, BMW full leather interior Merino upholstery, M interior trim strips Carbon Fibre.

The prices given apply to the model versions offered in Germany. All prices shown are BMW AG's recommended retail prices ex works, excluding transport costs.

We reserve the right to make changes to designs and equipment. Your BMW partner will be happy to provide you with information about the detailed scope of optional extras and other individual equipment options (BMW Individual). The technical data, consumption values and trailer loads refer to a vehicle with standard and special equipment installed ex works. Subsequently installed accessories or add-on parts are not taken into account.

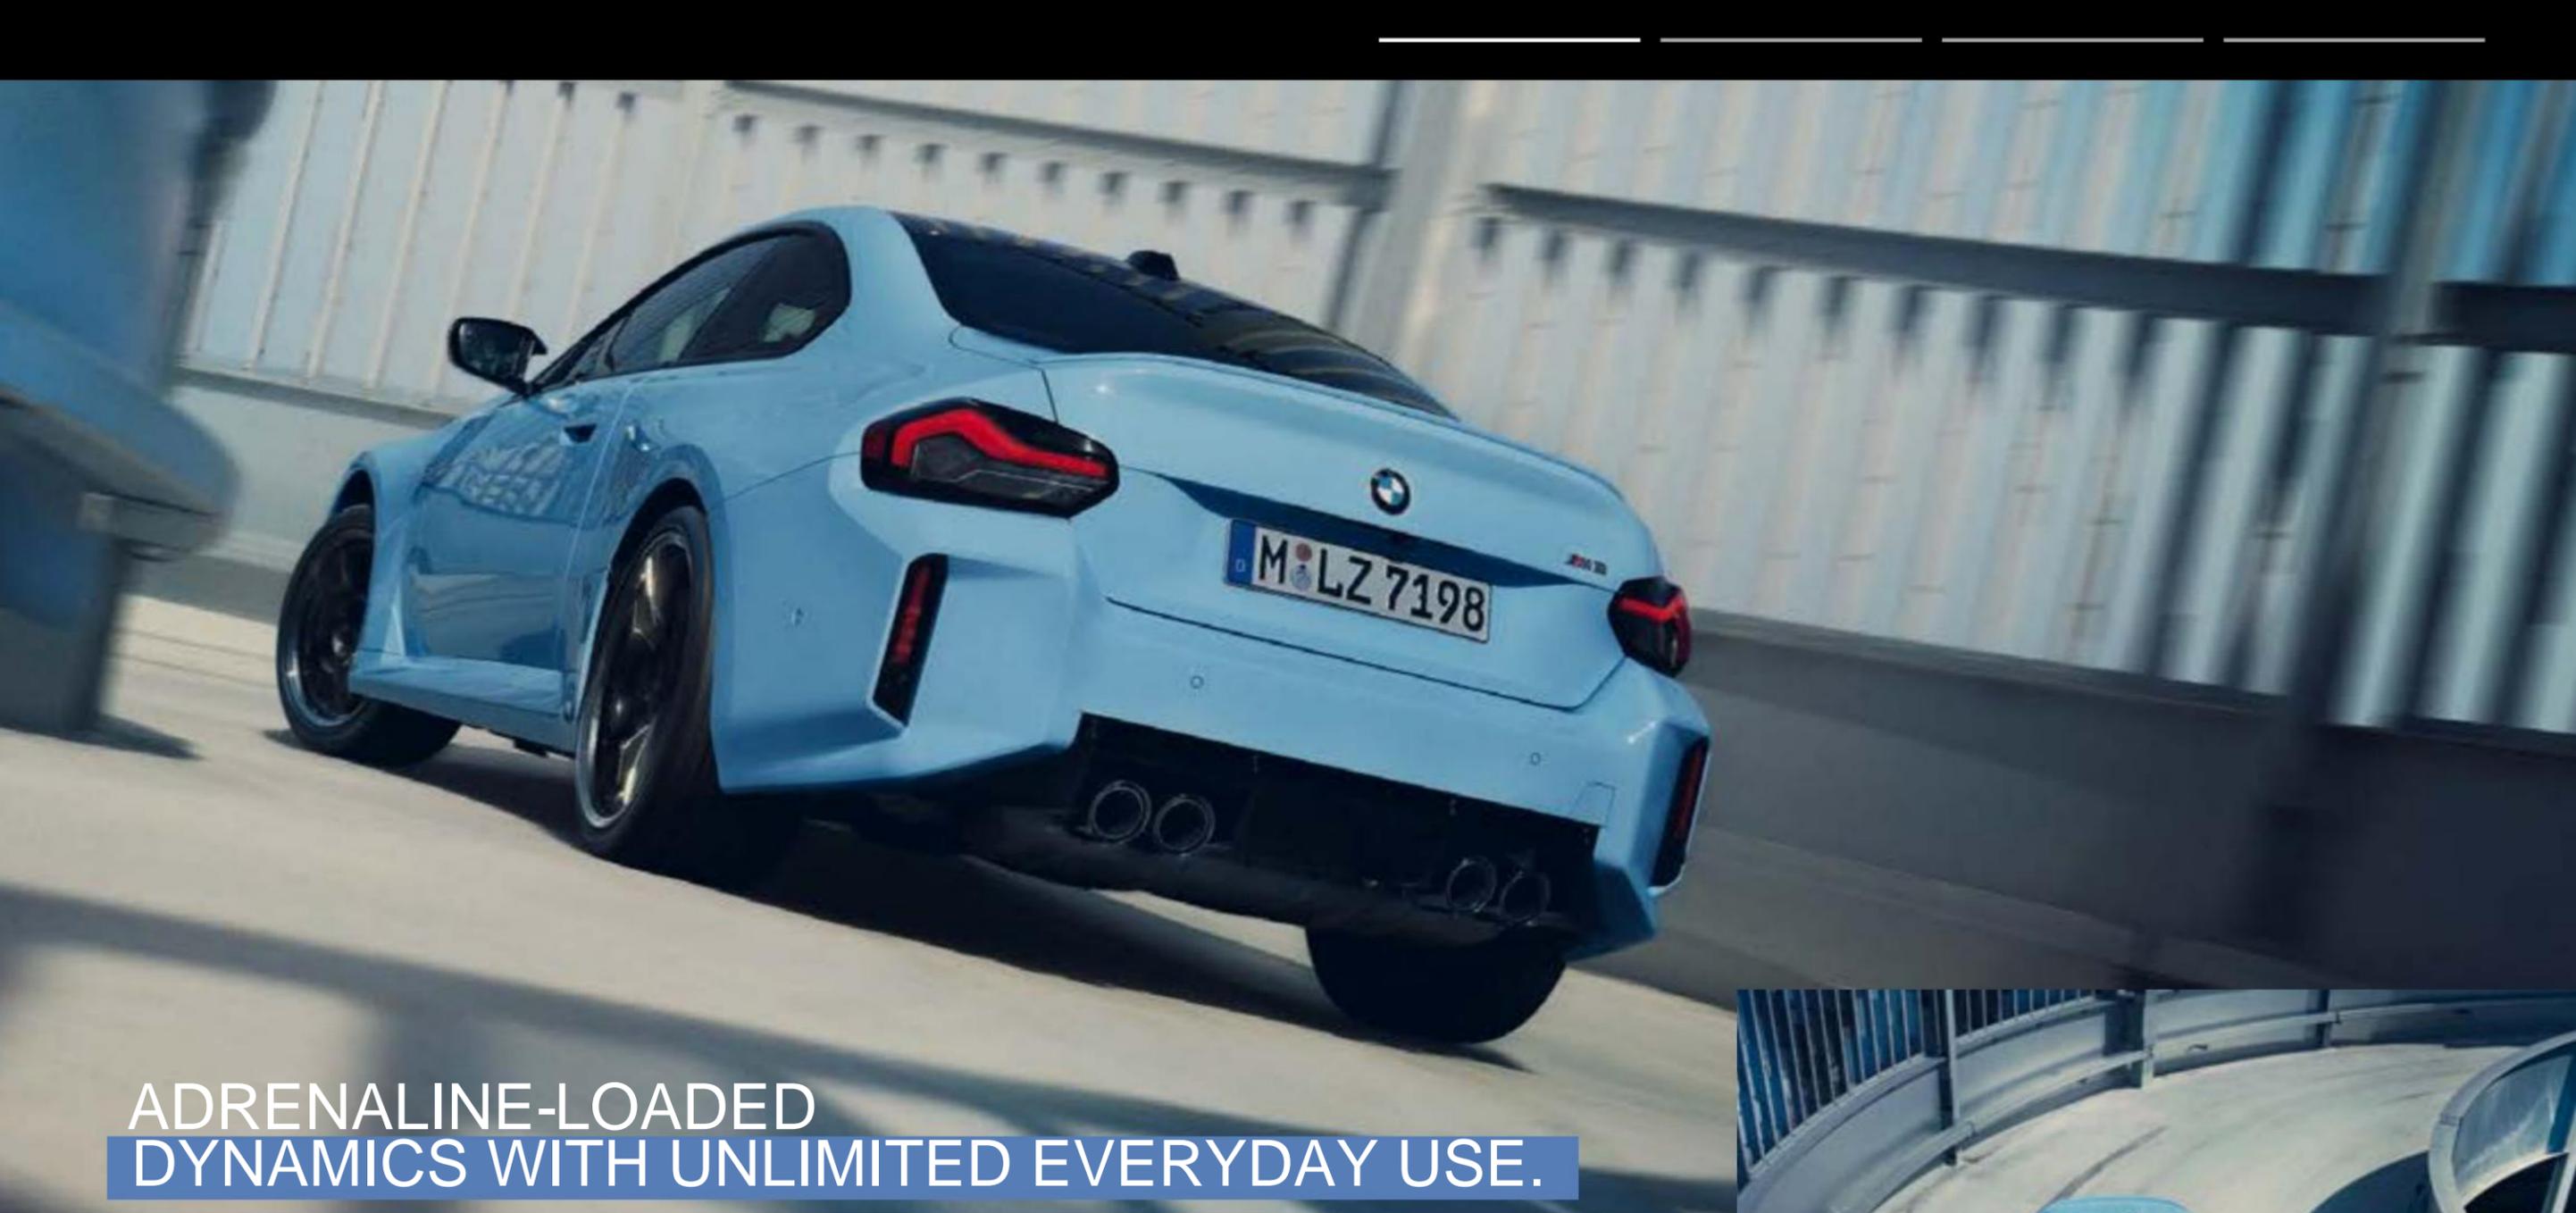

THE NEW BMW M2.

M 2

M 2

M 2

ADRENALINE-LOADED DYNAMICS WITH UNLIMITED EVERYDAY USE.

Exclusive motorsport feeling thanks to impressive performance values, high-performance M TwinPower Turbo in-line 6-cylinder petrol engine with 460 hp, Adaptive M suspension with Active M differential and rear-wheel drive and M Steptronic transmission with Drivelogic or manual transmission. The power dome on the bonnet, the expressive kidney grille and the M-specific front apron with the strongly contoured air inlets underline the dynamics at the front.

EXCITING. ATHLETIC. UNADAPTED.

The multi-adjustable optional M Carbon bucket seats with partially integrated headrests offer excellent lateral support. The specific design with a black M logo emphasizes the sporty claim of the vehicle even better. The one-piece, fully digital BMW Curved Display presents information over a large area and clearly.

BMW xDrive – the intelligent all-wheel drive system from BMW

Official information on fuel consumption, CO2 emissions, power consumption and electric range was determined according to the prescribed measurement method and corresponds to the VO (EU) 715/2007 in the current version. WLTP information takes into account any special equipment (in this case the German market) in ranges. For vehicles that have been type-tested since January 1st, 2021, the official information only exists according to WLTP. Further information on the NEDC and WLTP measurement methods can be found at www.bmw.com/wltp

door sills

Door sill finishers made of aluminum at the front with "M2" lettering

Velor floor mats at the

front and rear, coordinated with all standard carpet colours

M headlining Anthracite

Automatic climate control with extended scopes

- 3-zone automatic air conditioning with extended scope
 - Target temperature control and setting of air volume and air distribution for
 - Driver and front passenger can be adjusted separately
 - Temperature control for rear passengers together
 - Automatic program with 5 intensity levels separately for driver and front passenger
 - Adjustment of temperature stratification for driver and front passenger separately
 - SYNC function –
 - automatic air circulation control –
 - maximum cooling (MAX AC)
 - Condensation and solar sensor
 - Activated carbon filter for fresh and recirculated air
 - Auxiliary ventilation with timer and direct operation
-

Fond:

- Automatic program for rear - digital display center console rear
- Rear center console chrome strip

SELECTED STANDARD EQUIPMENT.

CONNECTIVITY AND INFOTAINMENT

HIFI sound system

HIFI speaker system, digital amplifier, 205W amplifier power.

10 speakers:

- 1 midrange speaker in the dashboard
- 3 tweeters in the mirror triangles and the instrument panel
- 4 midrange speakers in the front door panels and rear side panels
- 2 central basses under the front seats

Shelf for wireless charging

Storage for smartphones in front of the cup holders with inductive/wireless charging function according to the Qi standard for suitable mobile phones

- NFC interface to the vehicle
- LED charge level indicator, cell phone forgotten warning
- Improved hands-free capability for passengers with a second microphone

DRIVING DYNAMICS

M TwinPower Turbo inline 6-cylinder petrol engine

Steptronic sports transmission

- 8-Gang M Steptronic mit Drivelogic
- additional, separate oil cooler
- 3 automatic shift programs (D1/D2/D3) with differentiated shift characteristics
- Tip-in-D function for temporary manual switching in automatic mode
- manual shifting via shift paddles on the steering wheel or gear selector lever in 3 stages (S1/S2/S3); no automatic upshifts at the rev limiter

Adaptive M suspension

- M-specific control of the shock absorber characteristics. Can be set to the modes "Comfort", "Sport" and "Sport Plus"
- Front axle: M specific double-jointed spring strut front axle
- Rear axle: M specific 5-link rear axle

M sport differential

- Active M differential
- M specifically tuned, electronically controlled rear axle locking differential with additional cooling fins on the underside of the housing
- Fully variable setting of the degree of locking, depending on the driving situation and the condition of the road accuracy between 0 and 100%

Improvement of traction, agility, stability and handling:

- Traction: Assigning "more torque" to the wheel with better traction
- Agility: increased potential for lateral acceleration and driving dynamics, increase the vehicle's willingness to bend
- Stability: Stability and sovereignty of the load change behavior through targeted dynamical interventions

M Drive

Preconfigured settings are activated via M Drive buttons, such as DSC mode, engine characteristics, M Servotronic, M Drivelogic, adaptive M suspension, braking characteristics, M Sound Control

M Drive Professional

contains:

- M Track Mode
- M Laptimer M Traction Control (10-stufig)
- M Operation Analysis

M Compound Bremsen

front axle:

- 6-piston fixed caliper brake, painted blue
- M marking
- Compound brake disc 380 x 36 mm, internally ventilated, perforated

rear axle:

- 1-piston floating calliper, painted blue, incl. integrated parking brake
- Clasp with M marking
- Compound brake disc 370 x 24 mm, internally ventilated, perforated

M Servotronic

Power assistance optimally adapted to any speed (e.g. minimum effort when parking)

DRIVER ASSISTANCE AND SAFETY

ISOFIX child seat attachment

for the two outer rear seats

Speed Limiter

- Speed limiter that limits the maximum speed via multifunction can be adjusted individually on the steering wheel.
- Display in the control display and in the instrument cluster.
- Can be overridden if necessary

Please note: The scope of the system included in the scope of equipment only supports within defined system limits. Responsibility and reaction to real traffic events remain with the respective driver.

Cruise control with brake function

- Cruise control from approx. 30km/h
- Driving downhill with braking intervention
- Operation via multifunction steering wheel
- Display of desired speed and operating mode in the instrument panel bination
- The driver can override the function at any time

Please note: The system scopes contained in the special equipment only support within defined system limits. Responsibility and reaction to real traffic events remain with the respective driver.

Dynamic Stability Control (DSC) with extended features

Parking brake, electromechanical

- including automatic hold function
- automatic release of the parking brake when starting (also for vehicles with shift transmission)

Park Distance Control (PDC) front and rear

Ultrasound-based driver assistance system: Makes parking and parking easier with acoustic and visual distance warnings for obstacles in the front and rear area.

This is indicated by colored markings in the schematic representation of the vehicle on the central display. PDC can be switched off manually.

Please note: The scope of the system included in the basic equipment only supports within defined system limits. Responsibility and reaction to real traffic events remain with the respective driver.

alarm system

for monitoring the doors, front and tailgate, including interior protection, Tilt alarm and emergency power siren

tire pressure control

Warndreieck

wheel bolt lock

SELECTED STANDARD EQUIPMENT.

COMFORT AND FUNCTIONALITY

BMW Live Cockpit Plus

- **BMW Curved Display:** Display combination with 12.3" fully digital instrument display and 14.9" Control Display
- **BMW Operating System 8** with variable, configurable widgets that display information in real time

- **Navigation** function with mapping of the current course of the road, arrow display, Map display showing north and driving directions as well as in perspective, 3D landmarks, micro City models, free text search (One Search) for addresses and points of interest, route guidance information with auto zoom function

- **Intuitive operating options**, BMW Intelligent Personal Assistant, BMW Controller **as well as** touch operation on the control display

- **Bluetooth / WiFi interface** with hands-free system

- **Audio tuner with diversity reception and RDS**

- **4G LTE connectivity:** built-in SIM card with 4G network in the vehicle for upright maintaining the mobility of the customer

- **Remote software upgrade:** enables regular over-the-air upgrades of the software for the entire vehicle, including quality improvements, expansion of functions and new features

- **Vehicle apps:** Apps such as online news, weather forecasts or country information can be used via the built-in SIM card in the car (even abroad). Term: 2 years

- **Navigation map update over-the-air:** 2 years free automatic Map updates up to 4 times a year as part of BMW ConnectedDrive. Alternative for 2 years of license-free map updates via BMW ConnectedDrive from your BMW dealer or BMW branch (plus installation costs)

- **Intelligent Personal Assistant:** Intuitive operation through natural language recognition This can also be activated with a command ("Hey BMW"). Term: 2 years

- **Intelligent emergency call including TeleServices and BMW accident assistance:** telematics service with manual and automatic emergency calls, establishes a connection to the emergency and rescue services via the BMW call center if necessary. In addition to the current position of the vehicle, data on the severity of the accident is also transmitted

Connected Package Professional*

Remote Services, Smartphone Integration inkl. Apple CarPlay und AndroidAuto, Connected Music oder BMW Maps mit Connected Navigation und Connected Parking? Get everything! With the Connected Package Professional you receive these services from BMW ConnectedDrive

- **Remote Services:** Remote functions that can be used via selected smartphones with the My BMW app can be called up, including unlocking/locking the vehicle and searching for a location, sending destination addresses to the vehicle. The service must be activated in a personalized way before it can be used (duration: unlimited)

- **3rd party assistants (duration 2 years):** Amazon Alexa integration: Enables the Use of the Alexa assistant you are used to at home, even in the vehicle – with Access to over a hundred thousand Alexa Skills

- **Smartphone Integration**:** enables wireless use of the smartphone, display and operation of smartphone content such as music, messages/SMS, telephony, selected third-party apps and navigation via the vehicle's user interface, Compatibility and range of functions of the smartphone with Apple CarPlay or Android Car dependent on model year and installed software version (duration: unlimited)

- **BMW Maps (duration 2 years):** Connected Navigation: Cloud-based navigation system with intuitive destination entry and enriched POI information such as opening times, ratings and pictures. Faster route construction with permanent route updates, accurate real-time traffic situation (RTTI) and improved traffic features with anticipatory traffic flow lead to a more precisely calculated arrival time

- **Connected Parking:** Various digital parking features offer customers parking information and help them find a parking space to ensure a pleasant and stress-free driving experience

- **Connected Music (2-year term):** Connected Music with Spotify offers deep integration of the market leader in music streaming via the vehicle SIM card. Customers can, for example, access their personal libraries via IPA and select the music of their choice (Spotify premium account required)

Keyless vehicle start

DAB tuner

including DAB+

Standard seat for driver and front passenger

- Sports seat geometry
- Manual adjustment for seat height, seat longitudinal direction, seat depth, backrest angle and headrest height

Backrest width adjustment for driver

Seat heating for driver and front passenger

- ensures pleasant warmth of the seats at low temperatures
- Heat can be regulated in 3 stages

Rear headrests, foldable

Interior and exterior mirror package

Interior and exterior mirrors on the driver's side, automatically dimming using built-in sensors:

- Outside mirror on the driver's side, aspherical, electrochromic
- Exterior mirror on the passenger side, convex, without automatic dimming function
- Folding function outside mirrors, electric
- Automatic curb mirrors on the passenger side
- Illuminated controls

Automatically dimming interior mirror

- Interior mirror, electrochromically coated
- Dim control using built-in sensors, which measures the light coming from behind and dims the interior mirror accordingly if the glare is calculated

welcome light

The interior and courtesy lighting is switched on via the vehicle key when the door is opened vehicle switched on for a short time

ambient light

- with ambient lighting designs
- LED reflected light (waterfall lighting)
- Ambient door pocket lighting
- Ambient center stack lighting (center stack storage compartment lighting)
- Ambient instrument panel lighting
- Ambient door mirror lighting
- Front and rear door panel contour lighting
- Includes 6 predefined selectable light designs in different colors with contour and ambient lighting

- In addition, the Welcome Light Carpet in the entry and exit area on the left and right uses light projection to create an ambient light graphic (integrated light source in the side sills on the left and right)

Heat/sun protection glazing

- made of toughened safety glass colored green all around
- Windscreen made of laminated safety glass
- Acoustic comfort glazing
- Reduced heating of the vehicle interior by reducing heat and light exposure

Personal Profile

key-related storage of settings for important operating functions

* Information on the BMW ConnectedDrive services, the General Terms and Conditions of Business and Use of BMW ConnectedDrive and the legal information on data protection can be found at www.bmw.de/kundenberatung-connecteddrive. If you have any questions, you can also contact the BMW ConnectedDrive hotline, which is available by telephone from Monday to Sunday from 8:00 a.m. to 8:00 p.m. on Tel. 49 89 1250-160 10 and by e-mail at bmw-connecteddrive@bmw.de is available.

** Note on use: Smartphone integration is permanently available in the vehicle. It includes Apple CarPlay® and Android Auto®. Usability of the Apple service CarPlay® or Google service Android Auto® cannot be permanently guaranteed due to possible future technical developments (e.g. mobile phones). TRANSPORT AND STORAGE

storage package

contains

in the interior:

- Fold-down compartment in instrument panel below, driver's side

in the luggage compartment:

- Mesh black
- Multifunctional hook

storage options

- Front door pockets (a 1.0 l bottle can be conveniently placed in the door pocket)
- Storage compartment in rear side panelling
- Storage tray and compartment with lid in the center console
- Compartment in front of cup holder

load-through system

Division: 40:20:40

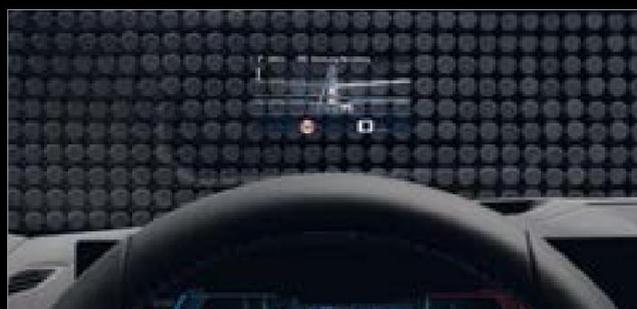

EQUIPMENTS

EQUIPMENT HIGHLIGHTS.

• The glass sunroof with slide and lift function, electrically adjustable roof liner, anti-trap protection and convenience opening and closing allows an individually adjustable air flow and thus a pleasant climate in the interior. The integrated wind deflector prevents drafts in the interior and reduces wind noise.

• The Adaptive LED headlights enable illumination that is optimally adapted to the driving situation thanks to numerous dynamic light functions. For example, the anti-glare high-beam assistant detects vehicles ahead or oncoming traffic and hides them. The light icon with a thick-wall look gives the headlight a striking look.

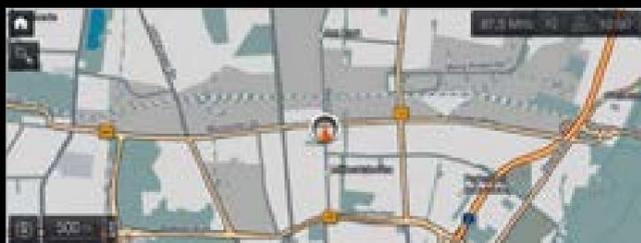

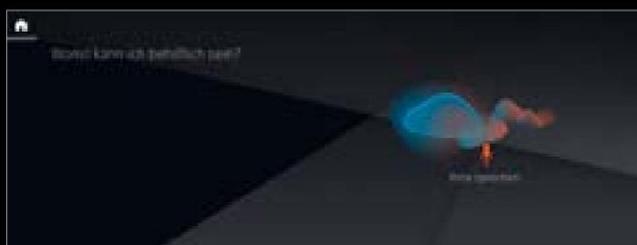

• The large, full-color BMW Head-Up Display projects information relevant to the journey into your field of vision, thereby increasing your concentration on what's happening on the road. Depending on the equipment, the current speed, navigation instructions, Speed Limit Info including no-overtaking display and telephone and entertainment lists are displayed here. The BMW Head-Up Display is available exclusively as part of the BMW Live Cockpit Professional.

• The headlights with parking and daytime running lights in LED technology as well as low and high beam in bi-LED technology are particularly durable and energy-saving.

• The BMW Intelligent Personal Assistant is your personal vehicle expert. You can use it to operate numerous vehicle functions using natural language.

• BMW Live Cockpit Professional with BMW Curved Display: Display network consisting of a fully digital 12.3" instrument display, a high-resolution 14.9" Control Display and a BMW Head-Up Display with configurable content. It contains all the content of the BMW Live Cockpit Plus plus the BMW Head-Up Display.

• Your BMW is up to date. You can download and then install remote software upgrades via the My BMW App2 or in the vehicle.

• Standard equipment • Special equipment

¹ The BMW Head-Up Display can only be seen to a limited extent with polarized sunglasses. The displayed content depends on the equipment.

² Displays require the purchase of additional special equipment. The prerequisite is the ConnectedDrive Services equipment and a compatible smartphone. The range of functions depends on the apps installed on the smartphone.

The availability of some equipment, functions and digital services depends on engine variants or additional special equipment. Detailed information on availability, terms and costs can be obtained from your local BMW partner. Similar pictures. Errors and changes reserved.

EQUIPMENT HIGHLIGHTS.

ÿ The 8-speed M Steptronic transmission with Drivelogic enables a particularly high level of shifting and driving comfort.

ÿ Outstanding Harman Kardon surround sound system with 464 W digital amplifier, nine channels, individual equalization and 14 loudspeakers.

ÿ Smart, up-to-date, well thought-out: in a modern design and with intuitive user guidance, the My BMW App¹ accompanies you through a completely new mobility experience. Plan your next trip, check the status of your BMW, book your next service appointment or use one of the many remote control functions - conveniently from your smartphone.

ÿ Always prepared for anything: with the Connected Package Professional, you can secure the most important BMW ConnectedDrive services.

ÿ With Smartphone Integration⁴, your vehicle supports Apple CarPlay and Android Auto. So you can use your usual apps in the vehicle.

ÿ "Alexa, turn on the light in the living room." Enjoy the same convenience of Amazon's Alexa^{2,3} voice service in your BMW that you know from home.

ÿ Tens of millions of songs on the go. Thanks to Connected Music with Spotify, your favorite music is always with you. Without detours directly in your BMW.

ÿ Standard equipment

ÿ Special equipment

The availability of some equipment, functions and digital services depends on engine variants or additional special equipment. Detailed information on availability, terms and costs can be obtained from your local BMW partner. Similar pictures. Errors and changes reserved.

¹ The prerequisite is the ConnectedDrive Services equipment and a compatible smartphone. The range of functions depends on the apps installed on the smartphone.

² An Amazon account is required for the integration of Amazon Alexa Car Integration.

³ Amazon, Alexa and all related logos are trademarks of Amazon.com, Inc. or its affiliates.

⁴ Smartphone integration is permanently available in the vehicle. It includes Apple CarPlay and Android Auto. The usability of the Apple CarPlay service or Google Android Auto service cannot be permanently guaranteed due to possible future technical developments (e.g. mobile phones). CarPlay is a trademark of Apple Inc. Android Auto is a trademark of Google LLC.

EQUIPMENT HIGHLIGHTS.

• The M carbon bucket seats^{1,2} with illuminated model lettering and visible carbon surfaces ensure weight reduction in the vehicle. They can be electrically adjusted in many ways and are suitable for multi-point seat belts.

• The Driving Assistant 3 supports you in numerous dangerous driving situations and brakes automatically in an emergency.

• The Parking Assistant 4 makes parking easier with features such as the reversing camera, Active Park Distance Control and the parking and reversing assistant.

• Standard equipment • Special equipment

¹ Only available in conjunction with the M Race Track package.

² Included in the M Race Track package.

³ Function may be restricted in the dark, fog and strong backlight.

⁴ The driver is responsible for ensuring that the automated parking process is always monitored in accordance with road traffic regulations.

The availability of some equipment, functions and digital services depends on engine variants or additional special equipment. Detailed information on availability, terms and costs can be obtained from your local BMW partner. Similar pictures. Errors and changes reserved.

EQUIPMENT HIGHLIGHTS.

• Ambient light creates a relaxing lighting atmosphere in the interior, including ambient light accents and welcome light with the Welcome Light Carpet.

• The illuminated M accent surfaces visually showcase the M colors in a unique way – for a very special eye-catcher in the interior. The surfaces in the door panels, backlit in M colors, underscore the exclusive, sporty character of the vehicle. The fading effect emphasizes the dynamism represented by the strongest letter in the world.

• The through-loading system with the rear seat backrest that can be split 40:20:40 guarantees great flexibility when transporting people and objects.

• Standard equipment

• Special equipment

EQUIPMENT HIGHLIGHTS.

• The M lights Shadow Line contain a black version of various elements in the main headlights and ensure an unmistakable design.

• The M rear spoiler emphasizes the vehicle's sporty silhouette and reduces unwanted lift.

• The M high-gloss Shadow Line with extended features includes tailpipe trims in black chrome.

• The M high-gloss Shadow Line contains numerous equipment details in black high-gloss. These include the window frame and the exterior mirror frame, the mirror triangle and mirror sword.

• Standard equipment • Special equipment

The availability of some equipment, functions and digital services depends on engine variants or additional special equipment. Detailed information

You can obtain information on availability, terms and costs from your local BMW partner. Similar pictures. Errors and changes reserved.

EQUIPMENT HIGHLIGHTS.

• The M Sport differential optimizes traction and driving stability when changing lanes and accelerating out of bends, at high cornering speeds and on different road surfaces. The traction is optimized via an electronically controlled multi-disc lock to reduce the speed differences between the rear wheels.

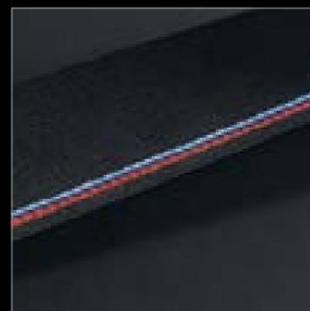

• M roof liner Anthracite: The roof liner, storage shelf and roof pillar trim are in Anthracite fabric.

• The multi-adjustable M sports seats with a bucket seat look and partially integrated headrest offer you and your front passenger excellent lateral support.

• BMW M 50 years emblems

• The M seat belts with belt tensioners and belt force limiters have a fine woven accent in the typical M colors.

• Standard equipment

• Special equipment

The availability of some equipment, functions and digital services depends on engine variants or additional special equipment. Detailed information

Includes carbon applications on the steering wheel and carbon shift paddles

4MC

990,- [831,93]

Included in the M Race Track package

In conjunction with manual transmission

790,- [663,87]

OPTIONAL EQUIPMENT.

EQUIPMENT PACKAGES

M Race Track Paket	7MM	12.990,-	ÿ
- M Carbondach		[10.915,97]	
- M carbon bucket seats			
- M Interieurleisten Carbon Fibre			
- M Driver's Package			
In conjunction with manual transmission		12.790,-	ÿ
		[10.747,90]	

OUTSIDE

M high-gloss Shadow Line with extended scope	7M9	100,-	ÿ
- Kidney frame in black high-gloss		[84,03]	
- Tailpipe trims in black chrome			
- Front air curtain panels in high-gloss black			
M Carbondach	40C	2.600,-	ÿ
Not in conjunction with glass roof, electric		[2.184,87]	
Included in the M Race Track package			
BMW M 50 years emblems	3MQ	200,-	ÿ
To mark the 50th anniversary of BMW M GmbH, the classic "BMW Motorsport" emblem returns. If desired, the emblem can be selected for BMW M automobiles		[168,07]	
M Logo an:			
- Front bumper			
- tailgate			
- Wheel hub cover			
Model lettering, deletion	320	-,-	ÿ
Elimination of the model lettering on the rear			

INTERIOR

steering wheel heating	248	200,-	ÿ
heats the steering wheel rim to a comfortable temperature in a very short time after switching on		[168,07]	

ENTERTAINMENT

Harman Kardon Surround Sound System	688	550,-	ÿ
digital amplifier with individually adjustable equalizing, 464W amplifier power, 9 channels		[462,18]	
Loudspeaker panels with Harman Kardon lettering			
14 speakers:			
- 1 center tweeter in the middle of the instrument panel			
- 1 center midrange driver in the middle of the instrument panel			
- 2 tweeters in the front door panels			
- 2 mid-range speakers in the front door panels			
- 2 central basses under the front seats			
- 2 midrange speakers in the rear door panels			
- 2 tweeters in the rear shelf			
- 2 midrange speakers in the rear shelf			

OPTIONAL EQUIPMENT.

INFORMATION AND COMMUNICATION

BMW Live Cockpit Professional inkl. BMW Head-Up Display	6U3	1.050,- [882,35]	9
<ul style="list-style-type: none"> - BMW Curved Display: Display combination with 12.3" fully digital instrument display and 14.9" Control Display - BMW Operating System 8 with variable, configurable widgets that display information in real time - Navigation function with display of the current course of the road, arrow display, map display showing north and driving directions as well as perspective, 3D landmarks, micro city models, free text search (One Search) for addresses and special destinations, route guidance information with autozoom function - Intuitive operating options, BMW Intelligent Personal Assistant, BMW Controller and touch operation on the Control Display - Bluetooth / WiFi interface with hands-free system - Audio tuner with diversity reception and RDS - 4G LTE connectivity: permanently installed SIM card with 4G network in the vehicle to maintain the customer's mobility - Remote Software Upgrade: enables regular over-the-air software upgrades for the entire vehicle, including quality improvements, expansion of functions and new features - Vehicle Apps: Apps such as online news, - Weather forecasts or country information are used (also abroad). Term: 2 years - Navigation map update over-the-air: 2 years of free automatic map updates up to 4 x per year within the framework of BMW ConnectedDrive. Alternatively, a license-free map update for 2 years via BMW ConnectedDrive from your BMW dealer or BMW branch (plus installation costs) - Intelligent Personal Assistant: Intuitive operation through natural speech recognition, which can also be activated by command ("Hey BMW") can be four. Term: 2 years - Intelligent emergency call including TeleServices and BMW accident assistance: telematics service with manual and automatic emergency call, if necessary, establishes a connection to the emergency and rescue services via the BMW Call Center. In addition to the current position of the vehicle, data on the severity of the accident is also transmitted

M Driver's Package	7ME	2.450,- [2.058,82]	9
<p>includes an increase in the top speed to 285 km/h (availability after a running-in inspection has been carried out and a mileage of 2,000 km), including a voucher for a one-day BMW race track training course from the BMW M Driving Experience: www.bmw-m.com/drivingexperience</p> <p>Included in the M Race Track package</p>			
M compound brakes, high-gloss red	3M5	300,- [252,10]	9
<p>Front axle: - 6-</p> <ul style="list-style-type: none"> - piston fixed calliper brake, painted red - M marking - Compound brake disc 380 mm x 36 mm, internally ventilated, perforated <p>Rear axle: - 1-</p> <ul style="list-style-type: none"> - piston floating caliper, painted red, including integrated parking brake - Clasp with M marking - Compound brake disc 370 mm x 24 mm, internally ventilated, perforated 			

OPTIONAL EQUIPMENT.

ASSISTANCE SYSTEMS

Driving Assistant

5AS

600,-
[504,20]

y

Camera and radar-based driver assistance system consisting of:
Lane Departure Warning, Lane Change Warning and Front Collision Warning with braking intervention, Rear Cross Traffic Warning, Rear Collision Prevention and Speed Limit Info with manual Speed Limit Assist.

– Spurverlassenswarnung:

Recognizes lane markings from approx. 70km/h and warns of unintentionally leaving the lane by means of steering wheel vibration and active steering feedback. Suppressed when the indicator or tip indicator is set (wanted lane change). Display in the instrument cluster.

– Lane change warning:

Serves for the permanent monitoring of the side surroundings of the vehicle, detection of vehicles in the "blind spot" from 20 km/h when changing lanes (set indicators or tip indicators), haptic warning on the steering wheel (vibration) and flashing symbol in the exterior mirror.

– Collision and pedestrian warning with city braking function:

The front collision warning with brake intervention, consisting of a collision warning / pedestrian warning with city braking function, enables vehicles to be warned and braked in a speed range of approx. 5 km/h to 85 km/h and people in a speed range of 5 km/h to 65 km/h and cyclists. Also reacts to standing targets. If an accident can no longer be completely avoided, the city braking function helps to reduce the speed of the impact and thus the severity of the accident. The collision warning also warns of a collision with a vehicle in front at higher speeds (>85 km/h), as well as preconditioning of the brakes for faster response and shorter braking distances.

– Rear cross-traffic warning:

Supports the driver e.g. B. when reversing out of a parking space and warns of possible collisions with crossing traffic in poorly visible traffic situations.

– Rear collision prevention:

Detects imminent rear-end collisions via rear sensors and warns following traffic using the hazard warning lights (flashing at double frequency). In addition, preventive protective measures are initiated in unavoidable accident situations (e.g. belt tightening, closing the windows, etc.).

– Speed Limit Info:

With a display of speed limits ahead and a no-overtaking display, as well as manual Speed Limit Assist, which enables a recognized speed limit to be adopted as the setting speed for the limiter function and cruise control.

– Attention assistant:

- analyzes the driving behavior of the driver (steering)
- takes into account time and driving time
- Function from 70km/h upwards
- cannot be switched off
- The system recognizes increasing inattentiveness and driver fatigue
- Suggestion in the Control Display to take a break now

Please note: The system scopes contained in the special equipment only support within defined system limits.
Responsibility and reaction to real traffic events remain with the respective driver. The function can be limited in the dark, fog and strong backlight.

Active Cruise Control with Stop & Go function

5DF

600,-
[504,20]

y

Camera and radar-based driver assistance system consisting of cruise control with distance control, Speed Limit Info including no-overtaking display, manual Speed Limit Assist, front collision warning with brake intervention.

Distance control with Stop&Go function enables:

- Distance control to vehicles ahead via radar sensor in the bumper.
- Automatic convoy (longitudinal guidance only) in slow-moving traffic and in traffic jams until the vehicle comes to a standstill. automatic Automatic start-up after a short standstill (1 –3 s)
- Operation of the active cruise control via multifunction on the steering wheel. Desired speed (30 km/h to 160 km/h) and distance (4 levels) adjustable.
- Function also recognizes stationary vehicles as target objects.
- It is possible to switch to cruise control without distance control.
- Speed Limit Info incl. no-overtaking display with display of upcoming speed limits and no-overtaking indicator.

– (Manual) Speed Limit Assist: The

Speed Limit Assist function combines Speed Limit Info with the active cruise control and, with additional confirmation, enables a speed limit detected when driving past to be transferred to the active cruise control with Stop&Go function.

Front collision warning with braking intervention consisting of collision warning with braking function, pedestrian warning with

City braking function and adaptive brake assistant enable: – situation-dependent pre-filling of the brake system and lowering of the brake assistant's triggering threshold for deployment the maximum braking power in collision-prone driving situations.

- Response to vehicles ahead in a speed range of 5 to 200 km/h - Response to stationary targets up to 85 km/h

– Response to cyclists and pedestrians in a speed range of 5 to 85km/h

Please note: The system scopes contained in the special equipment only support within defined system limits.
Responsibility and reaction to real traffic events remain with the respective driver.

Not in conjunction with manual transmission

OPTIONAL EQUIPMENT.

Parking Assistant	5DM	600,- [504,20]	ÿ
Camera and ultrasound-based assistance system consisting of parking assistant, Active PDC, reversing assistant, side parking aid and the reversing camera.			
- Parking Assistant: The parking assistant makes it easier to park in parallel and perpendicular parking spaces, as well as when parking out of parking spaces parallel to the lane. In addition, the system measures possible parking spaces when driving past at speeds below approx. 35 km/h, even without prior activation. After being shown on the central display and activated by the driver, the parking assistant takes over all vehicle guidance, including steering, braking and gear selection. Activation when engaging reverse gear or gear position R or manually via a button below 35km/h. The function can be overridden by the driver at any time.			
- Active Park Distance Control: Damage avoidance or damage minimization when parking backwards (up to 5km/h) with reaction to collision-critical obstacles in the rear and side areas. If the accelerator pedal is actuated and an obstacle occurs, the vehicle brakes slightly to warn the driver. If the accelerator pedal is not pressed and the distance to the obstacle is very small, the function brakes with the maximum possible braking force to a standstill in order to avoid a collision or to reduce the damage.			
- Reversing assistant: When driving forwards at speeds of up to 36 km/h, the function saves the last 50 m of an entry route taken by the driver himself, in order to follow this route again when reversing if the driver wishes. The driver is relieved of the steering work and can concentrate fully on monitoring the vehicle's surroundings. The driver is responsible for the longitudinal guidance via gas and brake (speed <10 km/h) and for monitoring the area around the vehicle in order to avoid collisions with objects in the area around the vehicle.			
- Parking assistance page: Helps to minimize damage in maneuvering situations. Based on Park Distance Control, the system notes obstacles when driving past and shows their distance to the side area of the vehicle on the Control Display.			
- Backup camera: Supports the driver when parking backwards and maneuvering at speeds below 20 km/h by showing the rear area of the vehicle on the control display. The function offers a better overview when reversing. Interactive lane lines show the vehicle's trajectory. In conjunction with Park Distance Control, the distance information appears in the camera image. It is activated by engaging reverse gear. The camera is installed in the tailgate			
Please note: The system scopes contained in the special equipment only support within defined system limits. Responsibility and reaction to real traffic events remain with the respective driver.			
The driver is responsible for ensuring that the automated parking process is always monitored in accordance with the road traffic regulations.			

SAFETY

M seat belts	4GQ	300,- [252,10]	ÿ
Front and rear seat belts in black with M-specific stripes			
tire repair set	2VC	50,- [42,02]	ÿ

ORIGINAL BMW ACCESSORIES.

Intense driving experiences, even better: Original BMW accessories go best with original BMW accessories. Whether wheels and tyres, transport and luggage compartment solutions, interior accessories, communication, information and technology, charging accessories or M Performance Parts - with Original BMW Accessories you will find precisely the individual solution that will give you a whole new experience of driving pleasure.

WHEEL AND TIRES.

With the original BMW complete wheels you will reach your destination safely and underline the sporty appearance of your BMW at first glance. But what you don't immediately realize is that they are precisely tailored to your BMW, undergo the most extensive tests with intensive material and functional tests and were developed in close cooperation with leading tire manufacturers - individually tailored to the driving dynamics and design language of each individual BMW model.

TRANSPORT AND LUGGAGE SOLUTIONS.

Original BMW Accessories offer you a wide range of transport and luggage compartment solutions. In accordance with your personal wishes and interests, you can create additional space whenever and wherever you need it.

Whether it's carrier systems or accessories for the luggage compartment - you can always be sure that Original BMW Accessories are tailored precisely to your BMW and are easy to use.

INTERIOR ACCESSORIES.

A perfect fit – all Original BMW Interior Accessories products help to design the interior of your BMW according to your own ideas. In addition to the high level of functionality of Original BMW Accessories, you always opt for attractive BMW design and particularly good workmanship and material quality - and for an ambience that inspires you anew on every journey.

COMMUNICATION, INFORMATION AND TECHNOLOGY.

State-of-the-art functions and features for maximum freedom and flexibility: Original BMW Accessories for communication, information and technology are always at your side. It doesn't matter whether you value optimal telephone accessibility or the best sound - the innovative Original BMW Accessories have the right solution. Wherever you go, you'll always enjoy a good connection and personal entertainment.

CHARGING ACCESSORIES.

No matter where and how you want to charge your BMW – Original BMW charging accessories offer you tailor-made products and services. While your BMW is charging privately with the BMW Flexible Fast Charger at any socket or, even more conveniently, at a BMW Wallbox from Original BMW Accessories, there is an extensive network of public charging points available on the road. Innovative Connected Charging services, for example, show charging stations in the information display of your BMW or you can easily start the preconditioning of your vehicle from your smartphone. Your local BMW partner will advise you on other charging products and services such as installation scopes from our third-party partner NewMotion.

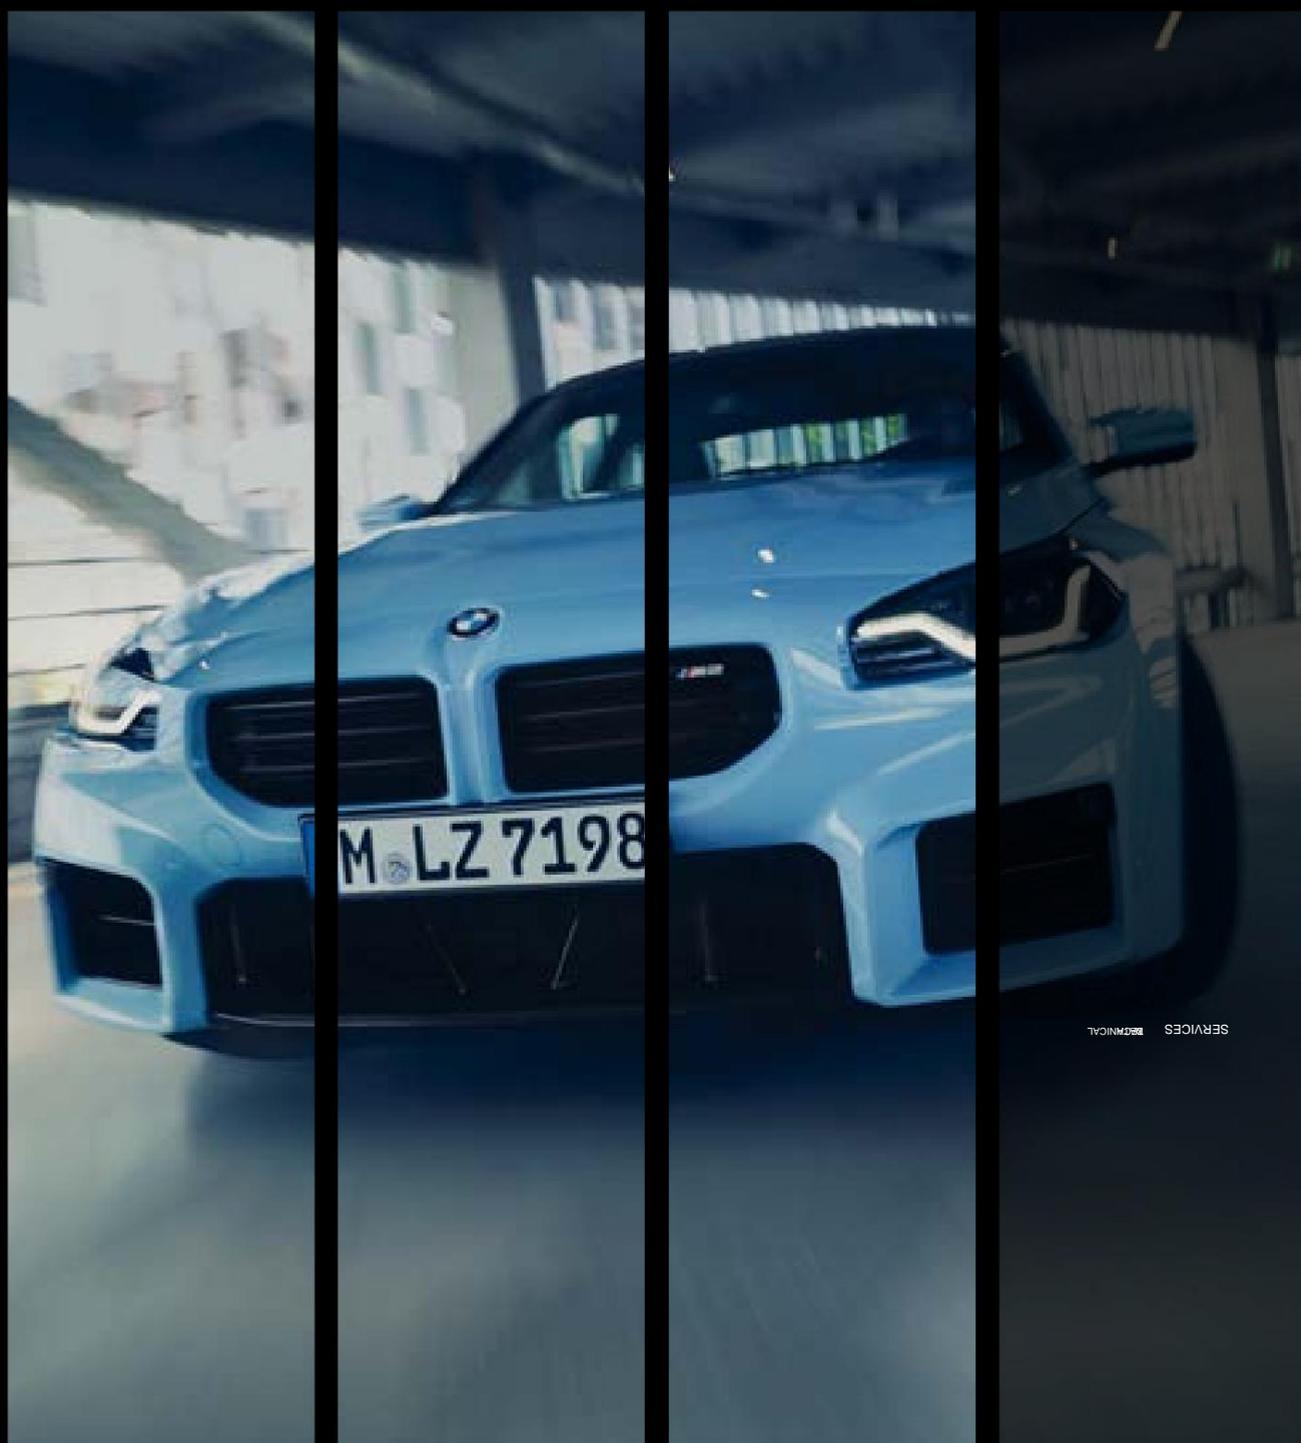

M PERFORMANCE PARTS.

With the M Performance Parts, you can also experience BMW's motorsport DNA in a fascinatingly intense way away from the race track. A large number of technical and optical components make outstanding technology a visual and tangible experience. Exclusive materials and first-class quality guarantee perfect dynamics. Experience inspiring top product performance: individual, expressive and uncompromising.

Discover the entire range of Original BMW Accessories and the product range of BMW M Performance Parts.

Values in [] apply to vehicles with Steptronic transmission.

¹ The EC curb weight refers to a vehicle with standard equipment and does not include any optional equipment. The curb weight is 90% tank filling and 75 kg for the driver into account. Optional equipment can change the weight of the vehicle, the payload and, if it affects the aerodynamics, the top speed.

² Official information on fuel consumption and CO₂ emissions was determined according to the prescribed measurement procedure and corresponds to the VO (EU) 715/2007 in the currently applicable version. Specifications in the NEDC take into account differences in the selected wheel and tire size in ranges, in the WLTP all special equipment. WLTP values are used to calculate taxes and other vehicle-related charges that are (also) based on CO₂. The NEDC values listed were determined on the basis of the new WLTP measurement method and calculated back to the NEDC measurement method for comparability. For vehicles that have been type-tested since January 1st, 2021, the official information only exists according to WLTP. You can find more information on the WLTP and NEDC measurement methods at www.bmw.de/wltp.

³ Information on performance for petrol engines relates to operation with RON 98 fuel. Information on consumption relates to operation with reference fuel in accordance with VO (EU) 715/2007. Unleaded fuel grades RON 91 and higher with a maximum ethanol content of 10% (E10) are permitted. BMW recommends the use of premium unleaded RON 95 petrol.

⁴ electronically limited.

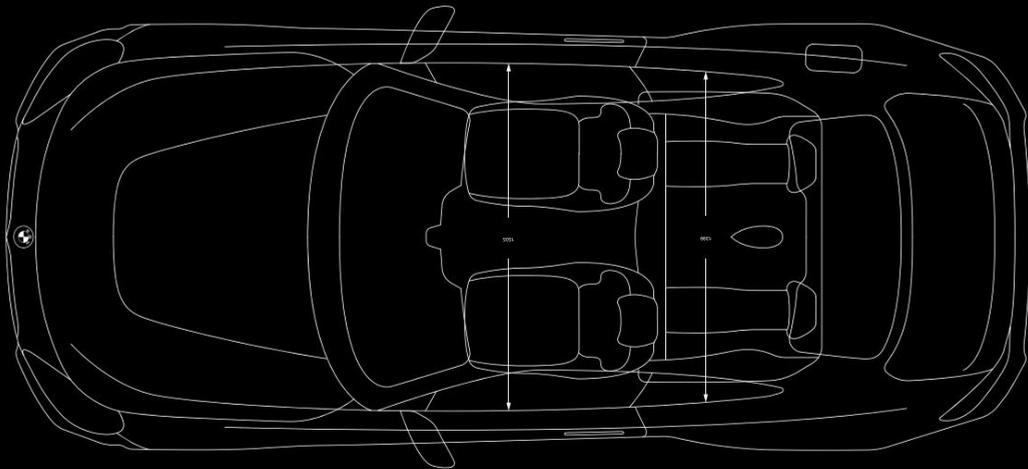

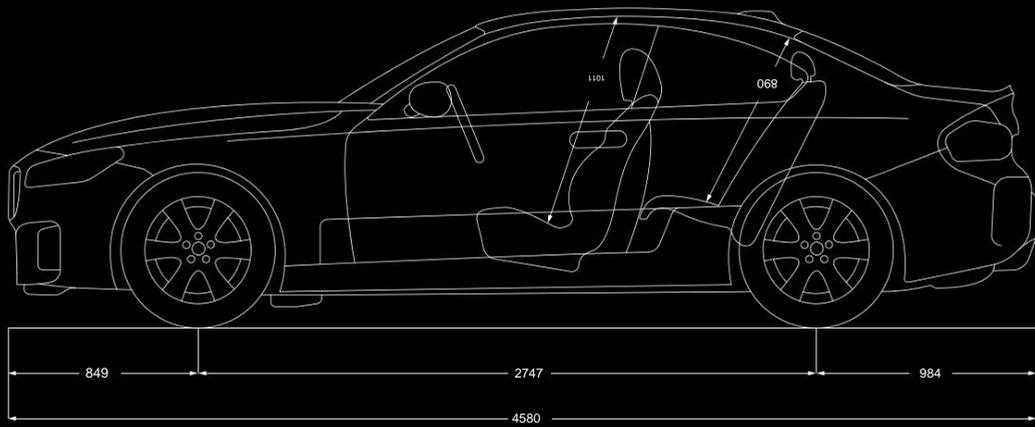

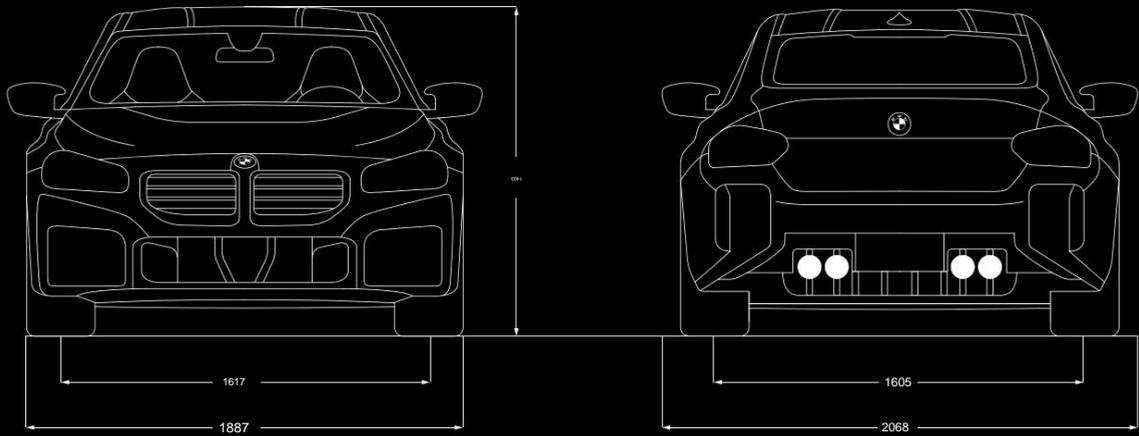

⁵ In conjunction with 7ME M Driver's Package, top speed increased to 285 km/h.

Further information on the official fuel consumption and the official specific CO₂ emissions of new passenger cars can be found in the "Guideline on fuel consumption, CO₂ emissions and power consumption of new passenger cars" which is available at all sales outlets, at Deutsche Automobil Treuhand GmbH (DAT), Hellmuth-Hirth-Str. 1, 73760 Ostfildern-Scharnhausen and is available free of charge at www.dat.de/co2/.

The information on fuel consumption, CO₂ emissions and efficiency class applies depending on the selected wheel category and special equipment. You can obtain the vehicle-specific consumption value according to NEDC and WLTP in the BMW online configurator at www.bmw.de/konfigurator or from your BMW partner.

The technical data, consumption values and trailer loads only refer to a vehicle with standard and special equipment installed ex works. Subsequently installed accessories or add-on parts are not taken into account.

TECHNICAL VALUES.

BMW SERVICE.

Always there for you: Your BMW Service Partner is there to help you with everything that concerns your BMW, helpful and competent. Our aim is to make every journey in your BMW as pleasant as possible. A large global workshop network offers you premium service from BMW specialists, innovative diagnostic technologies, rapid availability of custom-fit original BMW parts and original BMW motor oil.

There are many good reasons to choose BMW services. Thanks to online appointment scheduling, you can conveniently book your service appointment online. Use our innovative digital services and offers, such as B.

Online video consultation and get all relevant information on your smartphone.
